

**A:** New from NextDocs...

**V:** NextDocs logo and tagline – tagline fades out. May precede with Microsoft and infusion logos.

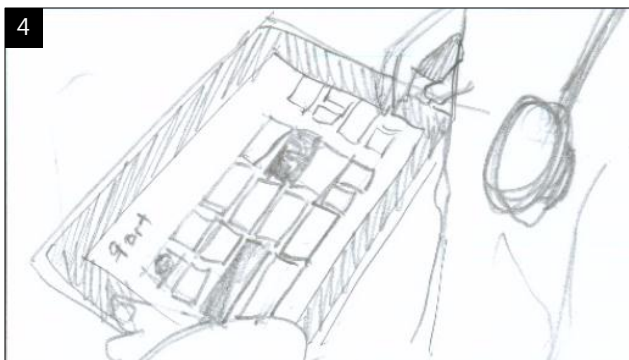

**A:** ...Investigator Document Center, the place to collaborate and communicate on clinical trials in an easy to use app across devices including Windows Tablet.

**V:** Fade

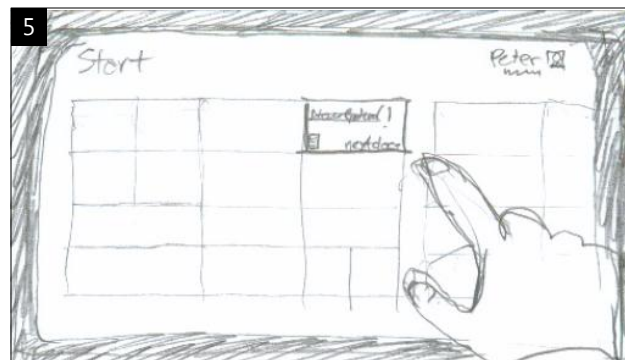

**A:** Peter, a Principal Investigator at Community Hospital, needs a way to stay on top of his trial sites while attending to patients.

**V:** Stock image of physician

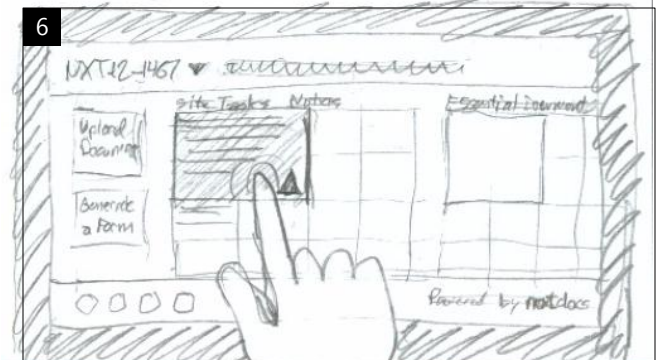

**A:** With Investigator Document Center, Peter checks his tablet while making his rounds.

**V:** Slow zoom into stock image of a Physician in lab coat with stethoscope holding tablet.

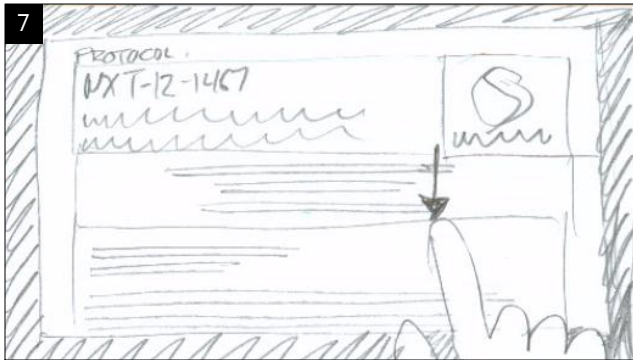

**A:** On his Start Screen, he gets a notification alerting him to a new Protocol Amendment that has just been released.

**V:** Cut to Windows Tablet Start Screen. He taps the IDC Notification tile.

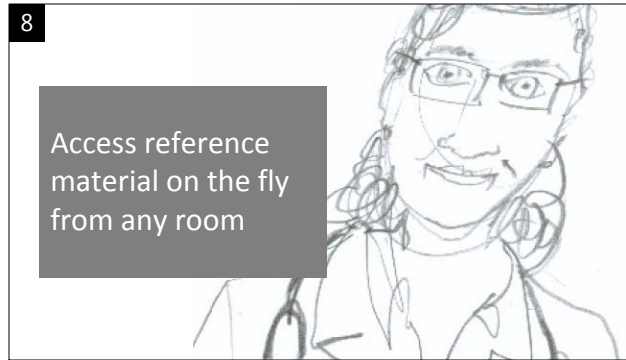

**A:** Peter immediately sees the large task tile directing him to review the amendment. He touches on the document and it opens up

**V:** Physician hand taps large tile. Document opens up.

**A:** Peter scrolls through the protocol noting the new amendment. He electronically signs the document.

**V:** Physician hand scrolls document vertically.

Access reference  
material on the fly  
from any room

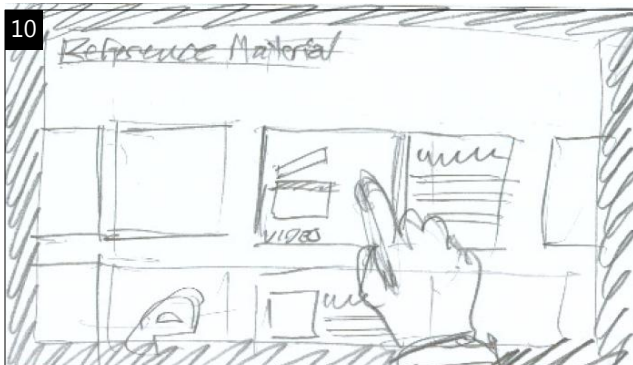

**A:** Samantha is a Sub-Investigator learning how to administer the trial compound. She needs to quickly access reference material on the fly.

**V:** Cut to stock image of physician.

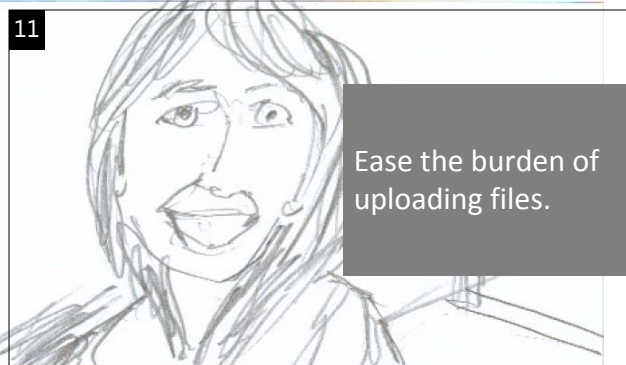

**A:** Peter is working with the patient while Samantha opens up the protocol on the tablet and follows along.

**V:** Zoom into stock image of female physician with tablet and male physician speaking to patient.

**A:** She has a question about one aspect of the procedure, and so she clicks over to Reference Materials and opens up a video detailing the process.

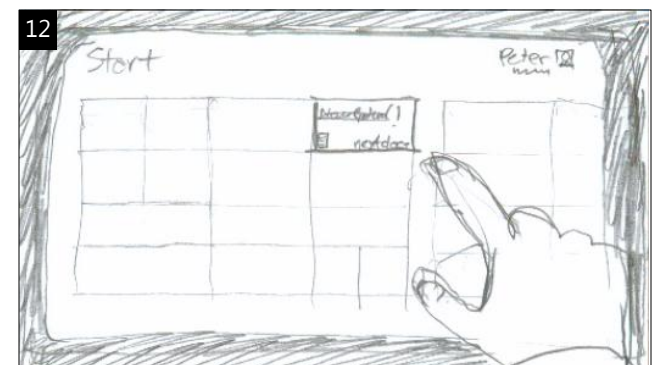

**V:** Physician's hand taps video tile. Stock video launches.

Ease the burden of  
uploading files.

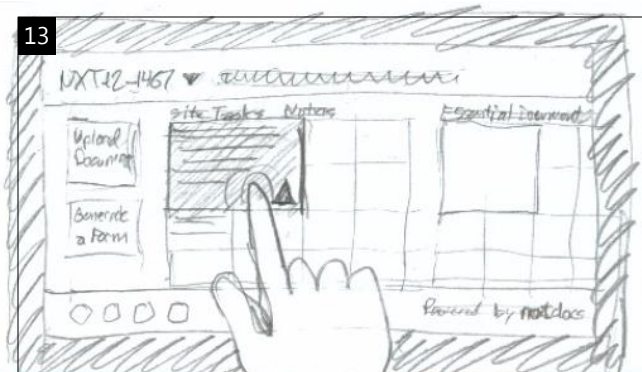

**A:** Ruth is a Regulatory Docs Coordinator and is meeting with Peter in preparation for a monitoring visit.

**V:** Stock image of female healthcare worker (not physician).

**A:** On her Start Screen she notices the Normal Ranges document in her email.

**V:** Cut to Ruth's hand tapping New Email tile. Email launches.

**A:** After saving and uploading the attachment the Lab Documents module completes, bringing up the process percentage to 70%.

**V:** Finger taps Upload Document. Hub screen refreshes with new percentage in tile.

**A:** Investigator Document Center for Windows 8 Tablet. Coming soon from NextDocs.

**V:** Zoom in / fade out
